ACKNOWLEDGEMENT

I would like to thank all the people who contributed in some way to the work described in this thesis. First and foremost, I thank my academic advisor, Mr. Budi Suprpto, for guiding me in doing the research. During my tenure, he contributed to a rewarding graduate school experience by giving me intellectual freedom in my work, supporting my attendance at various conferences, engaging me in new ideas, and demanding a high quality of work in all my endeavors.

Every result described in this thesis was accomplished with the help and support of my lovely wife, Tesa Theresia and my cute-naughty-annoying son Gregory Hendrison. I would like to thank also for my fellow student of IBMP Hoo, Rio, Giovan, Fanny, my co-worker Mas Akmal and to my DJ teacher, Nanko that always provide me a place to doing my thesis in the studio and also my DJ fellow Ko Rexy, Rizky Geboy, Baim and Alex for cheers me up in doing thesis. The lab assistant guy, Nathan also help me with knowledge of software and I worked together on several different phases, and without his efforts my work would have undoubtedly been more difficult.

Finally, I would like to fully thank to my parent for supporting my whole life and academic activity, I wish I could make them more happy and proud of me and God please, bless us and stay with us because without them, I am fully nothing.

ABSTRACT

Student growth in Indonesia are increasing from year to year rapidly, in Yogyakarta every year, thousands of students from various regions across Indonesia came to enroll in public universities and private universities or the other educational institutions.

With the large number of students in Yogyakarta, it has become a profitable business not only for educational institutions but also for the society of Yogyakarta, a wide range variant of businesses starting from stationery provider, boarding houses, restaurants, apparel, tutoring services and many more has created a big opportunity for all society to provide every need of the student and created a profitable business in both long term and short term.

Restaurant business in Yogyakarta is one of the very prospective investment because of the number of people who are growing rapidly day by day whether from students or tourist travelers. Yogyakarta provide the various types of food available ranging from traditional foods such as Gudeg, fast food restaurants, street food, fine dining it is all here. The food in Yogyakarta is also famous with the affordable price for students and other newcomers compare to other regions in Indonesia. Thus, restaurant business in Yogyakarta has a market with intense competition among the restaurant providers.
