

## BAB V

### KESIMPULAN DAN SARAN

#### 5.1. Kesimpulan

1. Jumlah pengunjung pada tempat wisata tidak ada korelasinya dengan *level of place attachment*; mengambil contoh melihat antara tabel jumlah pengunjung wisata sejarah & budaya (Tabel Lampiran 6) dan tabel *level of place attachment* (Tabel Lampiran 21), terlihat bahwa jumlah pengunjung yang besar, belum tentu mempunyai nilai *level of place attachment* yang tinggi pula. Kondisi ini juga dapat dilihat pada banyaknya wisatawan yang mengunjungi pada suatu tempat wisata, akan lebih sulit bagi wisatawan dalam mengobservasi, menginterpretasikan dan merefleksikan kejadian yang pernah terjadi sebelumnya pada tempat wisata tersebut. Sedikitnya wisatawan yang mengunjungi pada suatu tempat wisata, wisatawan akan lebih leluasa mengeksplorasi suatu obyek, merasakan suasana dan dapat memaknai kejadian yang pernah terjadi sebelumnya pada tempat wisata tersebut.
2. Banyak tempat wisata hanya memiliki *level 1* untuk *place attachment*; mayoritas *level of place attachment* pada tempat wisata berada di *level 1*, dapat dilihat pada Tabel Lampiran 17, Tabel Lampiran 19, Tabel Lampiran 21, Tabel Lampiran 23 dan Tabel Lampiran 25. Kebutuhan untuk meningkatkan *level of place attachment*, pendekatan karakter yang tepat secara arsitektural sangat dibutuhkan pada tempat wisata. Strategi ini

dianggap mampu menaikkan *level of place attachment* wisatawan, karena dapat dirasakan langsung dengan indera pengelihatannya dimana mempengaruhi sense wisatawan.

3. Wisatawan mayoritas melakukan kegiatan wisatawan pada malam hari; dari Tabel Lampiran 5, terlihat bahwa pengunjung malam hari mengalami peningkatan dua kali lipat dari waktu sebelumnya, namun jika melihat lebih detail, tempat wisata dengan kegiatan luar saja yang mengalami peningkatan jumlah pengunjung pada malam hari, seperti Malioboro, Alun-alun Kidul dan Kopi Joss. Ini berarti kegiatan wisata luar ruangan menjadi kegiatan yang masih diminati oleh wisatawan, karena kualitas lingkungan Kota Yogyakarta masih dapat diterima oleh wisatawan.

## 5.2. Saran

1. Keberlanjutan kota dalam aspek sosial dapat dikatakan berhasil jika nilai sejarah dan memori kolektif tersebut tersimpan dan tinggal di dalam komunitas. Untuk terus dapat menjaga keberlangsungannya, faktor kualitas perkotaan harus ditingkatkan dan dipertahankan dengan tampilan bangunan yang kontekstual dengan lingkungan sekitar, penyediaan sarana fasilitas pendukung wisata yang berkelanjutan, seperti penyediaan sarana transportasi umum, pemilahan sampah dengan tempat yang berbeda-beda, serta pembagian penggunaan tempat wisata yang dapat disesuaikan dengan kebutuhan wisatawan.

2. Jumlah pengunjung wisatawan yang besar, merupakan hal yang penting untuk meningkatkan *level of place attachment* suatu tempat wisata. Pada pembahasan sebelumnya, dijelaskan bahwa banyak tempat wisata memiliki jumlah wisatawan besar, namun *level of place attachment*-nya kecil. Melihat kondisi ini, akan menjadi ideal, jika pada tempat wisata mempunyai jumlah pengunjung dan *level of place attachment* yang sama besarnya. Jumlah pengunjung yang besar dapat mendukung dan memelihara tingkat keberlanjutan dalam aspek sosial di masa yang akan datang.
