## 5.3. Keterbatasan Penelitian dan Saran Penelitian Selanjutnya

1. Variabel dan kerangka penelitian yang digunakan pada penelitian ini masih terpaku pada variabel dan kerangka yang digunakan dalam penelitian sebelumnya oleh Wu *et al.*, (2014), untuk itu peneliti menyarankan agar penelitian selanjutnya mengadaptasi dan kemudian mengembangkan atau memodifikasi variabel-variabel dan kerangka penelitian yang akan digunakan.

Misalnya dengan mengganti variabel niat beli dengan variabel penjualan, niat beli ulang, dan sebagainya.

2. Lokasi penelitian yang digunakan pada penelitian ini tidak dibatasi sehingga hasil analisis data yang dilakukan tidak dapat mewakili sebagai hasil penelitian terhadap responden di suatu wilayah atau lokasi tertentu. Pembatasan lokasi dirasa perlu untuk penelitian selanjutnya, sehingga dalam menyampaikan dan menyimpulkan hasil analisis data bisa lebih spesifik dan mengurangi ambiguitas dari segi wilayah yang diteliti.
3. Dalam penelitian ini, menganalisis responden secara keseluruhan tanpa melakukan uji beda. Diharapkan untuk penelitian selanjutnya dapat melakukan uji beda agar hasil penelitian yang didapat lebih *detail* dan spesifik.
