

## BAB VI

### KESIMPULAN DAN SARAN

#### 6.1. Kesimpulan

Permasalahan yang sering terjadi di kawasan perkotaan adalah kurangnya fasilitas parkir di luar badan jalan, baik berupa taman parkir atau gedung parkir sehingga mengakibatkan beban parkir terakumulasi di badan jalan yang berakibat pada berkurangnya kapasitas jalan. Dengan berkurangnya kapasitas jalan akan menimbulkan berbagai macam masalah lalu lintas, terutama kemacetan lalu lintas.

Berdasarkan penelitian yang dilakukan di kawasan Pasar Klewer Solo dapat diambil kesimpulan bahwa di kawasan Pasar Klewer mengalami permasalahan parkir. Kesimpulan ini didasarkan pada beberapa hal.

1. Di dalam Taman Parkir di kawasan Pasar Klewer terdapat bangunan pendopo yang mengakibatkan areal parkir memiliki bentuk yang tidak beraturan sehingga menyulitkan pengelola dalam menata kendaraan untuk dijadikan areal parkir yang sesuai dengan persyaratan.
2. Kapasitas Taman Parkir yang ada di kawasan Pasar Klewer masih diatas permintaan parkir yang ada, tetapi baik di Taman Parkir 1 maupun Taman Parkir 2 tidak dapat menampung permintaan parkir pada jam-jam sibuk, pengunjung tidak bisa mendapatkan tempat parkir karena taman parkir sudah penuh.
3. Di lokasi Taman Parkir tidak sepenuhnya digunakan sesuai dengan fungsinya yaitu untuk parkir, ada beberapa tempat di dalam Taman Parkir 1 digunakan untuk

berjualan dan ada tempat untuk bongkar muat barang yang ada di lokasi Taman Parkir 2.

4. Taman Parkir di kawasan Pasar Klewer tidak memiliki pola parkir yang sesuai dengan persyaratan sebagai taman parkir sehingga menyulitkan pengemudi untuk melakukan manuver ketika masuk atau keluar dari petak parkir.

## **6.2. Saran**

Berdasarkan kesimpulan di atas, penulis mencoba untuk memberikan saran untuk meningkatkan fungsi dan pelayanan parkir di Taman Parkir di kawasan Pasar Klewer Solo.

1. Untuk meningkatkan kapasitas di Taman Parkir sebaiknya pengelola taman parkir tidak memperbolehkan para pedagang untuk berjualan di areal taman parkir. Hal ini akan menambah kapasitas parkir dan membuat taman parkir menjadi rapi.
2. Tempat bongkar muat barang dapat dilakukan di Taman Parkir 2 dengan tertib sehingga tidak mengganggu sirkulasi parkir yang ada di taman parkir tersebut. Ada baiknya agar pengunjung pengunjung menempati Taman Parkir 1 untuk parkir dan untuk para pedagang menempati Taman Parkir 2, mengingat para pedagang parkir dalam jangka waktu yang lama dan melakukan bongkar muat.
3. Untuk memudahkan pengemudi yang akan memarkirkan kendaraannya sebaiknya di areal taman parkir diberikan rambu keterangan dan petunjuk parkir. Dengan adanya rambu maka pengemudi tidak akan berjalan melawan arus yang ada di taman parkir.

4. Pengecatan marka parkir juga perlu dilakukan mengingat marka yang ada saat ini sudah tidak jelas. Pembenahan paving juga perlu dilakukan terutama di Taman Parkir 1.
5. Pemasangan rambu dilarang belok kanan perlu dilakukan pada pintu keluar karena banyak pengemudi yang melanggar arus lalu lintas untuk menuju ke Pasar Klewer.
6. Jika sangat memungkinkan akan lebih baik pendopo yang ada di dalam taman parkir dibongkar. Hal ini perlu bekerjasama dengan pihak Keraton Kasunanan Surakarta. Dengan dibongkarnya pendopo diharapkan dapat meningkatkan pelayanan parkir menjadi lebih baik dan membuat taman parkir menjadi lebih luas dan nyaman untuk digunakan.
