ACKNOWLEDGEMENT

The author of this thesis is grateful for the blessings that are given by the Lord Almighty himself. Through his guidance, the author is able to apply all the knowledge that the author got from learning in Atma Jaya Yogyakarta for four years. Throughout the process of writing this thesis, the author has to face various obstacles. However, with the help of family, supervisor and friends, the author managed to finish the research on time. The author would like to say grateful especially for:

1. Prof. Dra. Sukmawati Sukamulja., MM. As a great supervisor that guide the author from research methodology class, seminar and now, thesis. All the knowledge acquired are useful not just for writing this thesis, but also for the future.
2. Family, especially Mom who always support the author and believe in the author that the author can finish writing this thesis in no time.
3. All of my friends, thank you for the support throughout my studies in Atma Jaya University.
4. All the parties that the author couldn't mention individually, who also play a big role to finish this thesis in time.

The author is open to any suggestion and constructive critics for this thesis. The author hope that this thesis could positively contribute to the reader and parties.

Abstract

The purpose of this study was to determine the effect of leverage, firm size and deposit on profitability of private commercial banks BUKU IV in Indonesia. The data used for this research were obtained from Indonesia Stock Exchange and the website of each bank in the period of 2008-2019 with a total sample of five private commercial banks BUKU IV. The data analysis techniques used in this study is multiple regression analysis. The result showed that leverage and deposit did not affect profitability and firm size did affect profitability.

Keywords: Private Commercial Banks. BUKU IV. Profitability, Leverage, Firm Size, Deposit
