

## **BAB IV**

### **PENUTUP**

#### **A. Kesimpulan**

Hasil penelitian ini menunjukkan bahwa terpaan *citizen journalism* di *Wide Shot* Metro TV berpengaruh positif terhadap minat mahasiswa untuk menulis atau mengirim berita. Adapun besar pengaruhnya sebesar 16,7%. Hasil ini dapat diartikan bahwa meskipun pengaruhnya tergolong kecil, namun stimulus atau rangsangan berupa terpaan *citizen journalism* ternyata mampu meningkatkan atau menimbulkan minat responden terutama untuk menulis atau bahkan mengirim berita. Sebaliknya, juga semakin rendah rangsangan yang diterima yakni berupa terpaan *citizen journalism*, maka minat responden terutama untuk menulis atau bahkan mengirim berita juga semakin rendah. Berdasarkan hal tersebut, maka hipotesis penelitian yang berbunyi “Ada pengaruh terpaan *citizen journalism* di *Wide Shot* Metro TV terhadap minat mahasiswa untuk berita” diterima.

#### **B. Saran**

Berdasarkan kesimpulan di atas, maka peneliti dapat memberikan saran sebagai berikut:

1. Bagi pihak manajemen *Wide Shot*, supaya masyarakat lebih aktif mengirimkan berita diharapkan memberikan *reward* selain beritanya ditayangkan juga diberikan dalam bentuk yang lain atau bahkan jika berita yang dikirimkan

tersebut masuk nominasi si pengirim dijadikan sebagai jurnalistik dari Metro TV.

2. Bagi peneliti selanjutnya yang tertarik untuk meneliti tentang *citizen journalism* diharapkan menggunakan media yang lain serta responden dan model maupun metode yang lain.
