

BAB V

KESIMPULAN DAN SARAN

5.1 Kesimpulan

Berdasarkan penelitian yang dilakukan mengenai analisis perbandingan bunga riil dengan berbagai skema pembayaran kredit pemilikan rumah didapatkan hasil sebagai berikut.

1. Secara keseluruhan bunga efektif pada bank syariah masih lebih tinggi dibanding bank konvensional, tetapi dilapangannya bisa saja bank mempunyai pertimbangan agar mampu bersaing dengan produk KPR bank lainnya.
2. Bunga riil pada tenor 10 tahun lebih tinggi hingga 2x lipat atau lebih dari bunga riil dengan tenor 5 tahun, tetapi jika di lihat dari bunga efektif per-tahun, selisihnya hanya berkisar 1-% hingga 1.5%.
3. Semakin lama jangka waktu pinjaman, semakin besar beban bunga riil yang ditanggung oleh Debitur.
4. KPR Bank Syariah mempunyai jumlah angsuran/cicilan yang tetap (*flat*) hingga akhir pelunasan dan tidak mengenal *value of money* sehingga tidak berpengaruh pada fluktasi suku bunga di pasar.
5. Jangka waktu pinjaman (tenor) untuk KPR Bank Syariah paling lama hanya 15 tahun dibanding KPR Bank Konvensional yang bisa mencapai

20 tahun sehingga jumlah angsuran per bulan untuk KPR Bank Syariah cukup besar.

5.2 Saran

Dari hasil analisis dan pembahasan yang dilakukan terhadap analisis perbandingan bunga riil dengan berbagai skema pembayaran kredit pemilikan rumah, penulis memberikan saran sebagai berikut.

1. Sebelum meminjam dana kepada satu bank untuk keperluan kredit pemilikan rumah, ada baiknya membandingkan terlebih dahulu dua atau tiga bank dengan mempelajari bank mana yang lebih menguntungkan, karena debitur akan berhubungan dengan bank tersebut dalam jangka waktu lama (5 hingga 20 tahun).
2. Untuk para calon debitur , perlu memperhitungkan dengan cermat andai saja bunga naik dengan kisaran 3% - 4%, masih mampukah debitur membayar angsuran tiap bulannya?

Karena kenaikan 1% saja sudah cukup menaikkan nilai angsuran per bulan.

3. Alternatif yang baik untuk para calon debitur yang berprofesi sebagai karyawan dengan pendapatan tetap adalah sistem syariah karena lebih mudah merencanakan keuangan. Besar dana yang mesti dialokasikan untuk pembayaran cicilan KPR tiap bulannya sudah diketahui dengan pasti.

4. Untuk para pengembang (developer) agar mengadakan kerja sama dengan bank penyedia KPR. Salah satunya dengan memberi subsidi bunga kepada peminat hunian rumah. Maksudnya agar calon debitur KPR dapat memiliki tingkat bunga KPR yang lebih rendah di banding tingkat bunga pasar yang berlaku saat itu dan promo ini membuat rumah hunian itu dapat lebih cepat terjual.
