### **PENUTUP**

#### **A. KESIMPULAN**

Berdasarkan penelitian yang telah dilakukan kepada pelanggan majalah Bahana di Yogyakarta, dan melihat hasil dari pembahasan yang dipaparkan dalam bab III, maka kesimpulan umum yang diperoleh untuk menjawab rumusan masalah “motivasi apa yang mendorong pelanggan di Yogyakarta dalam membaca majalah Bahana?” diperoleh kesimpulan bahwa berdasarkan tingkat kategori kebutuhan responden, kebutuhan pelarian termasuk dalam kategori tinggi dibutuhkan pelanggan majalah Bahana di Yogyakarta. Sedangkan kebutuhan kognitif, kebutuhan afektif, kebutuhan integratif personal dan kebutuhan integratif sosial termasuk dalam tingkat kategori sedang. Kesimpulan lain yang diperoleh bahwa kecenderungan pelanggan laki-laki dalam memabaca majalah Bahana adalah untuk memenuhi kebutuhan afektif, sedangkan perempuan untuk memenuhi kebutuhan kognitif. Asumsinya bahwa pelanggan laki-laki dalam penelitian ini cenderung ingin memenuhi kebutuhan yang berhubungan dengan emosional, sedangkan perempuan cenderung memenuhi kebutuhan akan pengetahuan.

Peneliti melakukan penelitian dengan membagi responden dalam dua kategori yaitu kategori bekerja dan tidak bekerja. Untuk kategori bekerja, responden menggunakan media untuk memenuhi kebutuhan integratif personal dan responden yang tidak bekerja menggunakan media untuk memenuhi kebutuhan kognitif.

Penelitian ini menemukan bahwa ternyata bagi para pelanggan majalah Bahana, membaca majalah Bahana bukan hanya untuk menemukan informasi. Sehingga meskipun saat ini banyak informasi yang ditawarkan media massa lainnya seperti infomasi mengenai *fashion*, *gadget*, pengetahuan umum, dan lain sebagainya, kebutuhan masyarakat akan hal-hal yang bersifat spiritual juga masih diperlukan masyarakat. Hal inilah yang menjadi salah satu alasan khalayak tetap menjadi pelanggan majalah Bahana meskipun khalayak juga tidak terlepas dari kebutuhan akan informasi yang ditawarkan oleh media massa lain.

## B. SARAN

Hasil penelitian ini adalah pelanggan majalah Bahana membaca majalah Bahana sebagai salah satu cara memenuhi kebutuhan pelarian. Penelitian ini bersifat deskriptif kuantitatif sehingga teknik pengumpulan data dari penelitian ini dirasa kurang dalam menggali informasi dari responden mengenai motivasi responden. Sehingga akan lebih lengkap jika dilakukan penelitian lanjutan yang bersifat kualitatif dengan teknik pengumpulan data menggunakan *indepth interview* atau *focus group discussion*. Dengan menggunakan metode riset tersebut, maka data yang diperoleh akan jauh lebih mendalam dan lebih lengkap.
