

BAB V

PENUTUP

5.1 Kesimpulan

Berdasarkan hasil analisis data dalam penelitian yang telah dilakukan, maka dapat ditarik kesimpulan sebagai berikut:

1. Mayoritas responden yang berbelanja *online* untuk produk *fashion* adalah responden wanita yang berusia dibawah 25 tahun dengan pendidikan terakhir SLTA. Besar pengeluaran responden mayoritas berkisar Rp 1.000.000 - Rp 3.000.000 per bulan. Frekuensi responden berbelanja *online* yaitu 6 bulan 1 kali dengan pengeluaran untuk berbelanja *online* kurang dari Rp 500.000 dalam sebulan.
2. Terdapat pengaruh citra perusahaan secara signifikan pada tingkat kepercayaan konsumen. Untuk mengetahui seberapa besar pengaruhnya, dapat dilihat pada nilai *Standardized Coefficient Beta* sebesar 0,472 yang berarti bahwa citra perusahaan mempunyai pengaruh positif terhadap kepercayaan dan nilai t hitung $7,729 > 1,65251$ (*t tabel*) dengan tingkat signifikansi 0,000, maka citra perusahaan berpengaruh secara signifikan pada kepercayaan. Dengan demikian disimpulkan bahwa citra perusahaan mempunyai pengaruh positif secara signifikan pada kepercayaan konsumen.
3. Terdapat pengaruh *financial relationship marketing* secara signifikan pada tingkat kepercayaan konsumen. Untuk mengetahui seberapa besar pengaruhnya, dapat dilihat pada nilai *Standardized Coefficient Beta* sebesar

0,264 yang berarti bahwa *financial relationship marketing* mempunyai pengaruh positif pada kepercayaan dan nilai t hitung $3,941>1,65251$ (t tabel) dengan tingkat signifikansi 0,000, maka *financial relationship marketing* berpengaruh secara signifikan pada kepercayaan. Sedangkan untuk pengaruh *social relationship marketing* dapat dilihat bahwa *Standardized coefficient Beta* sebesar 0,368 berarti bahwa *social relationship marketing* memiliki pengaruh positif pada kepercayaan. Nilai t hitung adalah $5,705>1,65251$ (t tabel) dengan tingkat signifikansi 0,000 maka *social relationship marketing* berpengaruh secara signifikan pada kepercayaan. Sedangkan untuk *structural relationship marketing* menunjukkan bahwa tidak berpengaruh pada kepercayaan karena nilai signifikansinya $0,096>0,05$. Dengan demikian disimpulkan bahwa *financial relationship marketing* dan *social relationship marketing* mempunyai pengaruh positif secara signifikan pada kepercayaan konsumen, sedangkan *structural relationship marketing* tidak berpengaruh secara signifikan pada kepercayaan konsumen.

4. Terdapat pengaruh kepercayaan secara signifikan pada niat beli ulang konsumen. Untuk mengetahui seberapa besar pengaruh kepercayaan dapat dilihat pada *Standardized Coefficient Beta* sebesar 0,641 yang berarti bahwa kepercayaan berpengaruh positif pada niat beli ulang konsumen. Nilai t hitung yaitu sebesar $12,041>1,65251$ (t tabel) dan tingkat signifikansinya 0,000 maka kepercayaan berpengaruh secara signifikan pada niat beli ulang konsumen. Dengan demikian dapat ditarik kesimpulan bahwa kepercayaan

konsumen mempunyai pengaruh positif secara signifikan pada niat beli ulang konsumen.

5. Komunikasi getok tular positif bukan sebagai variabel moderator dalam hubungan kepercayaan dan niat beli ulang konsumen. Nilai signifikansinya $0,236 > 0,05$ berarti bahwa komunikasi getok tular positif tidak memperkuat pengaruh kepercayaan pada niat beli ulang secara signifikan. Sedangkan untuk komunikasi getok tular negatif, menunjukkan nilai yang signifikan ($Sig = 0,013 < 0,05$) sehingga dapat disimpulkan bahwa komunikasi getok tular negatif sebagai variabel moderator yang memperlemah pengaruh kepercayaan pada niat beli ulang.

5.2 Implikasi Manajerial

Dari hasil penelitian ini, berikut adalah implikasi manajerial yang bisa diterapkan oleh para pemilik *online shop*.

1. Diharapkan *online shop* baik yang sudah besar maupun yang baru didirikan dapat terus menerus meningkatkan citra perusahaannya. Kepercayaan konsumen pada suatu *online shop* sangat dipengaruhi oleh seberapa baik citra perusahaan/*online shop* tersebut. Citra yang baik dapat menjadi kunci sukses bagi sebuah *online shop* dalam menarik kepercayaan calon konsumen. Untuk meningkatkan citranya, *online shop* dapat menggunakan strategi seperti selalu menepati janjinya kepada konsumen dan memberikan pelayanan yang baik kepada konsumen.

2. *Online shop* perlu terus untuk menjaga hubungan dengan konsumennya baik dari segi finansial maupun sosial. Melalui strategi dari segi harga misalnya pemberian diskon atau *voucher* dapat mempengaruhi kepercayaan konsumen. Selain itu, *online shop* perlu untuk bersikap ramah dan melayani konsumen dengan baik. Dengan hubungan sosial yang baik maka konsumen menjadi lebih percaya. Selain itu juga akan terbangun hubungan jangka panjang dengan konsumen.
3. Komunikasi getok tular menjadi sesuatu yang penting bagi *online shop*. Selain itu, komunikasi getok tular dapat menjadi strategi promosi yang bagus dalam dunia maya sekaligus menjadi ancaman karena informasi akan tersebar dengan mudah. Jika informasi yang negatif tersebar, maka akan mengancam niat beli ulang konsumen. Dengan demikian diharapkan *online shop* dapat melakukan usaha untuk mengurangi getok tular negatif di kalangan konsumen seperti misalnya memberikan hadiah atau *gift* kepada konsumen yang pernah dikecewakan untuk tanda permintaan maaf. Selain itu, *online shop* juga perlu untuk tetap membangun getok tular positif untuk menarik minat konsumen baru.

5.3 Keterbatasan Penelitian

Meskipun penulis telah berusaha sebaik mungkin dalam melakukan penelitian, namun penulis menyadari adanya keterbatasan dalam penelitian ini, yaitu antara lain:

1. Penelitian ini berfokus pada *online shop* yang menjual produk *fashion*, sehingga hasil penelitian belum tentu relevan apabila diaplikasikan pada *online shop* maupun industri yang menjual produk lainnya, sehingga disarankan untuk penelitian selanjutnya dapat meneliti dengan objek yang berbeda.
2. Responden yang direkrut hanya berjumlah 210, sehingga untuk penelitian selanjutnya bisa menambahkan responden yang lebih banyak agar lebih mewakili populasi.
