5.2 Saran

1. Bagi pihak manajemen PT. Samsung Electronics Indonesia antara lain dalam menentukan program pemasaran produk *smartphone android* Samsung yang sesuai dengan harapan konsumen. Ditinjau dari hasil penelitian ini saran yang peneliti ajukan yaitu untuk meningkatkan dimensi kesesuaian dengan spesifikasi produk yaitu dengan menginovasi atau mengembangkan spesifikasi produk yang ada pada produk agar produk dapat sesuai dengan kepribadian konsumen misalnya bagi konsumen berjenis kelamin perempuan agar sesuai dengan kepribadiannya diberikan pilihan warna-warna yang feminim seperti warna merah muda, biru muda,

ungu, dan lain sebagainya. Sedangkan untuk konsumen berjenis kelamin laki-laki agar sesuai dengan kepribadiannya diberikan pilihan warna yang lebih gelap seperti silver, biru tua, hijau tua dan lain sebagainya. Kemudian selain warna agar sesuai dengan kepribadian konsumen yang mementingkan kinerja, daya tahan, fitur dan dimensi kualitas produk lainnya sebaiknya produsen menginovasi produk sehingga menjadi lebih baik dari produk pesaing misalnya menambah kapasitas RAM sehingga produk dapat lebih lancar saat digunakan, memberikan fitur yang lebih menarik dibanding produk pesaing misalnya resolusi kamera yang lebih baik bagi konsumen yang senang dengan fotografi, daya tahan produk yang lebih baik dibanding produk pesaing misalnya produk yang tahan banting, tahan air, dan lain sebagainya. Kemudian difokuskan pada konsumen yang memiliki pendapat cukup setuju terhadap negara asal produk (*COO*) mencerminkan kualitas dari produk sehingga terjadinya komunikasi getok-tular atau *WOM* semakin meningkat.

2. Bagi pihak peneliti selanjutnya jika menggunakan topik yang sama sebaiknya memperluas ruang lingkup penelitian misalnya pengguna *smartphone android* Samsung di Daerah Istimewa Yogyakarta sehingga responden penelitian lebih heterogen.

5.3 Kelemahan Penelitian

1. Kelemahan dari penelitian ini adalah ruang lingkup penelitian yang sempit yaitu hanya terbatas pada mahasiswa Universitas Atma Jaya Yogyakarta pengguna produk *smartphone android* merek Samsung sehingga

responden yang didapat homogen yaitu hanya mahasiswa Universitas Atma Jaya Yogyakarta.

2. Spesifikasi responden yang sudah sangat menguasai pengoprasian dan kinerja yang ada pada produk *smartphone android* merek Samsung menyebabkan variabel dimensi kualitas produk X1 yaitu kinerja bukan merupakan prediktor terciptanya *word of mouth* produk *smartphone android* merek Samsung.
