

## BAB V

### KESIMPULAN

penelitian  
Stacy Dr. Nana

#### 5.1 Kesimpulan dari hasil Analisis:

Dari hasil data yang telah diolah dapat diambil kesimpulan, diantaranya:

1. Dari nilai skor *Attitude Toward The Site* didapat nilai sebesar 73.53 yang masuk dalam norma sedang (Chen and wells, 1999) dan dari keenam pernyataan yang diajukan, rata-rata responden menjawab setuju untuk mengunjungi website Friendster, merasa nyaman menjelajahi web site Friendster, menjelajahi web site Friendster merupakan cara yang baik untuk meluangkan waktu, dan dibandingkan website-website lain yang pengguna kenal, pengguna menilai web site Friendster lebih baik. Sedangkan untuk apakah pengguna puas dengan layanan yang diberikan web site Friendster, pengguna menjawab netral dan tidak setuju bahwa web site Friendster memudahkan pengguna menjalin hubungan dengan perusahaan Friendster.
2. Dari Skor *Entertainment* sebesar 67.8 yang menurut =Chen dan Well termasuk berada dalam skor yang medium dimana berarti bahwa pada sisi *Entertainment* pada web site Friendster belum bisa dipakai sebagai keunggulan dalam bersaing. Sedangkan skor *Informativeness* sebesar 73.6 dimana berarti sisi inipun belum memenuhi kriteria untuk dapat dijadikan sebagai salah satu keunggulan dalam memikat konsumen. Sedangkan dari skor *Organization* mendapat nilai yang tertinggi diantara ketiganya yaitu sebesar 77.6.

3. Berdasarkan Skor *Attitude Toward The Site, Entertainment Informativeness Organization* Dapat diinterpretasikan bahwa Untuk meningkatkan keunggulan dalam bersaing, maka strategi yang diambil adalah meningkatkan sisi *Organization* dengan meningkatkan *Usability* web site Friendster.
4. Perancangan Prototype untuk mengakomodasi solusi untuk meningkatkan sisi organisasi dengan meningkatkan usability telah dilakukan berdasarkan *The Research-Based Web Design & Usability Guidelines (Guidelines)* yang dikembangkan oleh U.S. Department of Health and Human Services (HHS) (Nielsen, 2006) yang diurutkan berdasarkan *Relative Score*.

## 5.2 Saran-saran.

Berdasarkan hasil penelitian yang ada, maka saran-saran yang dapat penulis berikan adalah:

1. Dengan dilihat bagaimana Skor *Organization* dapat digunakan sebagai keunggulan bersaing dan position dalam benak pengguna, maka manajer juga dapat mengembangkan sisi lainya sebagai pendukung, namun tetap memprioritaskan sisi *Organization* sebagai keunggulan yang utama.
2. Friendster hendaknya tetap fokus pada penyediaan layanan network sosial online dengan mengedepankan slogan *make dating, meet Friend more easy*. Karena hal ini perlu didukung sisi *Organization*, dimana mudah untuk digunakan dan memberikan pengalaman tersendiri bagi pengguna serta nyaman digunakan sehingga menjadikan Friendster bagian yang tidak terpisahkan dari kegiatan berteman.

3. Untuk penelitian selanjutnya prototype dapat kembali diukur *Attitude Toward The Site*

### 5.3 Kelemahan penelitian

Pada penelitian ini dalam menentukan alat analisis apa yang digunakan untuk meningkatkan sisi *Entertainment*, meningkatkan sisi *Informativeness*, dan meningkatkan sisi *Organization* dikarenakan belum adanya penelitian yang mendukung hal tersebut, maka peneliti menggunakan asumsi yang didasarkan dari definisi *Organization* pada penelitian Chen dan Well (1999) yaitu sejauh mana web site tersebut mudah untuk digunakan, mudah dipelajari, dan sejauh mana pengguna dapat menyelesaikan pekerjaannya. Hal ini sesuai dengan komponen dari Usability (Jacob Nielsen, 2003) yaitu ***Learnability***: Bagaimana mudah untuk digunakan untuk menyelesaikan *basic tasks* pada pertama kali pengguna menggunakan desain itu?, ***Efficiency***: Ketika pengguna mempelajari desain itu, secepat apa mereka dapat menyelesaikan *tasks*?, ***Memorability***: Ketika pengguna kembali menggunakan desain itu kembali setelah beberapa lama tidak menggunakan?, ***Errors***: Berapa banyak kesalahan yang pengguna lakukan, dan bagaimana pengguna mengatasi kesalahan tersebut?

Selain itu Jacob Nielsen (2003) juga mengatakan Kata *usability* juga sama artinya dengan suatu metode untuk meningkatkan kemudahan untuk digunakan. Sedangkan Joseph Dumas dan Janice (Ginny) Redish (2004) mengatakan, *usability* berarti bagaimana seseorang mampu menggunakan suatu produk dengan sangat mudah dan cepat untuk menyelesaikan pekerjaannya. Karena itu alat untuk menganalisis sisi *Organization* adalah *The Research-Based Web Design & Usability*

*Guidelines (Guidelines)* yang dikembangkan oleh U.S. Department of Health and Human Services (HHS)

Sedangkan untuk sisi *Entertainment* dapat dijelaskan dari beberapa element yaitu *Fun, Exciting, Cool, Imaginative, Entertaining, and Flashy* Hal ini sesuai dengan tujuan dari Handbook Macromedia Web Site design membuat web site *more Cool, Imaginative, Ecicing and Flashy* (Ricard, 2001). Sedangkan untuk sisi *Informativeness* yang dapat dijelaskan oleh *Informative, Intelligent, Knowledgeable, Resourceful, Useful and Helpful* dapat dianalisis dengan *Research Guides Evaluating Internet information* oleh Susan Beck dalam *The Good, The Bad and The Tgly: or, Ehy It's a Good Idea to Evaluate Web sources Evaluation Criteria* (1997).

**Lampiran I**

**Pendapat Responden Mengenai Prototype**

### **1. Milka, responden 1 umur 22, mahasiswa, Wanita**

Komposisi warna saya suka, kelihatan lebih banyak warna, jadi tidak terlalu membosankan dan monoton dan statis lebih dinamis. Untuk menu saya merasakan lebih mudah. Selama ini saya tidak bisa membayangkan struktur menu jadi selama ini saya asal klik dan mencari, tapi sekarang bisa. Selain itu sekarang lebih tidak ribet. Saya bisa memberi testi kepada teman saya dari halaman awal, kalau pada Friendster saya harus masuk dan mencari teman saya lalu saya kasih testi dan itu tidak mudah.

### **2. Clarisa, responden 2 umur 18, mahasiswa, Wanita**

Warna bagus terasa lebih hidup dan tidak cepat bosan, dibandingkan dengan warna biru abu-abu dan putih yang kesannya itu-itu saja. Pilihan banyak sehingga saya gak harus bingung membuka itu-ini dulu baru saya menemukan fungsi yang saya inginkan padahal saya hanya ingin melakukan itu saja karena saya sedang terburu-buru misalnya. Kedua lebih mudah saya aja hanya butuh beberapa menit untuk mengerti apa maksud fungsi-fungsi yang ada. Fitur-fiturnya baru-baru dan kelihatannya menyenangkan, seperti saya bisa tahu saya memberi testi kepada siapa saja, kalau di Friendster mana mungkin saya mengetahuinya. Selain itu fitur penyimpanan tanggal Birthday teman saya tanpa harus mendekati hari h baru tahu, memungkinkan saya bisa tanya ke Friendster kalau ingin tahu tentang Birthday teman saya kapan saja.

### **3. Surya, 19 responden 3, mahasiswa, Laki-laki**

Bagaimanapun dengan fitur pencari foto memungkinkan saya bisa mencari foto yang sesuai dengan deskripsi yang saya cari, selain itu saya bisa jadi mengumpulkan foto. Karena itulah dengan fitur pencari foto saya merasa betah di Friendster. Selain tampilannya lebih hidup dan berwarna saya juga suka menu keduanya, dimana menu tersebut khusus untuk halaman yang saya buka, sehingga saya mau apa aja mengenai halaman yang saya buka terakomodasi pada menu kedua. Selain itu saya dapat mengakses keseluruhan fitur pada Prototyping Friendster dari halaman pertama. Dan tentu saja ini menghemat waktu saya.
