

BAB IV

PENUTUP

A. Kesimpulan

Berdasarkan hasil analisis serta pembahasan pada bab III, maka dapat disimpulkan sebagai berikut:

1. Ada hubungan (0,391; 0,000) antara citra dengan loyalitas dan diketahui bahwa responden dengan citra yang baik dan sangat baik cenderung loyal dan sangat loyal. Dengan demikian hipotesis 1 yang berbunyi “Terdapat hubungan antara citra band (Endank Soekamti) dengan loyalitas penggemar” terbukti.
2. Ada hubungan (0,205; 0,002) antara persepsi dengan citra. Dengan demikian dapat disimpulkan bahwa H2 yang berbunyi “Terdapat hubungan antara persepsi penggemar mengenai musik Punk rock/pop serta kasus blacklisting oleh EO di Jakarta dengan citra Endank Soekamti” diterima.
3. Ada hubungan (0,134; 0,045) antara pengetahuan dengan citra. Dengan demikian dapat disimpulkan bahwa H3 yang berbunyi “Terdapat hubungan antara tingkat pengetahuan mengenai musik Punk rock/pop, serta kasus blacklisting oleh EO di Jakarta, dengan citra band (Endank Soekamti)” diterima.
4. Hubungan antara citra dengan loyalitas setelah dikontrol oleh usia menjadi menurun menjadi sebesar 0,367, sedangkan sebelumnya kuat hubungannya

sebesar 0,368 sehingga diketahui terjadi penurunan sebesar 0,001. Dengan hanya penenurunan sebesar 0,001 menunjukkan bahwa usia tidak mampu mengonrol hubungan antara citra dengan loyalitas. Dengan demikian dapat disimpulkan bahwa H4 “Terdapat hubungan antara Citra band (Endank Soekamti) dan penggemarnya setelah dikontrol oleh usia penggemar” tidak terbukti.

B. Saran

Merujuk pada kesimpulan di atas, maka peneliti dapat memberikan saran sebagai berikut:

1. Teoritis

Penelitian ini menemukan bukti bahwa persepsi dan pengetahuan mampu mempengaruhi atau membentuk citra, sedangkan citra mampu mempengaruhi loyalitas penggemar. Hasil penelitian ini diharapkan dapat memberikan sumbangsih pemikiran bagi pengembangan ilmu komunikasi khususnya konsentrasi *Public Relations* di bidang hiburan khususnya dalam membangun citra artis/band.

2. Praktis

Temuan penelitian ini menunjukkan bahwa semakin baik persepsi dan semakin tinggi pengetahuan ternyata mampu mempengaruhi atau membentuk citra, sedangkan citra yang semakin tinggi mempengaruhi loyalitas penggemar. Dengan demikian diharapkan bagi artis/band jika ingin meningkatkan loyalitas penggemarnya diharapkan tetap menjaga

citranya serta memberikan pengetahuan kepada penggemarnya. Adapun cara yang dapat dilakukan misalnya dengan tetap eksis di jalurnya.
